EDUCATION

10/2024 – present: Master's in Artificial Intelligence and Innovation Management

Bologna Business School, University of Bologna, Bologna, Italy

LLM, Data Mining, Generative AI, Deep Learning, Neural Networks, Natural Language Processing, Computer Vision, Law & Technology, Big Data, Decision Support Systems.

09/2020 – 05/2023: Bachelor's Degree – Computer Science Software Engineering

University of Wolverhampton, Wolverhampton, United Kingdom

WORK EXPERIENCE

05/2024 – 10/2024: Zest Education (*Educational*) – Full-Time Supervisor – Birmingham, United Kingdom.

Zest Education is a UK-based agency that places qualified teachers, teaching assistants and support staff in primary, secondary, and special educational needs (SEN) schools.

- As a cover supervisor, I had to adapt quickly to changing environments and unforeseen circumstances. I learned how to think on my feet, adjust my plans on short notice and remain calm under pressure when faced with unexpected challenges
- Effective communication is crucial for conveying instructions, managing classroom dynamics, and building rapport with students and staff.

06/2019 – 07/2019: Capgemini (*Technology*) – Software Engineer Intern – Worthing, United Kingdom

Capgemini is a global leader in consulting, technology, and digital transformation. It helps businesses leverage innovation solutions in AI Cloud, Cybersecurity, and data to drive growth and efficiency.

- I aided the team at Capgemini by developing and implementing software solutions for HMRC. I focused on various aspects such as tax systems, online services, and data management and collaborated with the development team.
- Contributed to the testing process by creating test cases, executing test plans, and identifying and reporting bugs and issues. Provided progress reports and task updates to the project managers and team leaders.
- Worked closely with senior software engineers. This involves participating in meetings, discussions, and collaborative problem-solving to achieve project goals.
- I received positive feedback from colleagues and supervisors for exceptional teamwork and for delivering high-quality solutions.

LANGUAGES

English: mother tongue | **Italian:** intermediate (B1)

COMPUTER SKILLS

Microsoft Office Suite: advanced | **Python:** advanced | **HTML, CSS, JavaScript, SQL, Java, R:** intermediate | **GitHub, Figma, Visual Studio Code:** advanced

ADDITIONAL INFORMATION

- **2023 – present:** co-founded **Coditale**, a web development and management agency that helps small businesses expand their online presence. Main tasks:
 - work on front-end and back-end infrastructures from scratch, avoiding using pre-built platforms like WordPress to ensure uniqueness and optimisation.
- Pursuing remote coursework in Artificial Intelligence and Python Programming through Harvard University.
- I worked as a private Python programming and computing tutor, which helped me showcase exemplary problem-solving and critical-thinking skills during tutoring sessions. I also served as a role model for students.
- Continuous learning, OOD, testing, debugging, adaptability, problem-solving, critical thinking, strong mathematical foundation, attentive listening, and effective communication skills.
- Achieved IBM Blockchain Essentials V2 certification and Amazon Web Services (AWS) cloud practitioner certification.
- Member of the Mainframe Student Society at the University of Wolverhampton. I learnt about mainframes and following IBM Z Xplore. [Sep 21 – May 23]
- I have hands-on experience working with Raspberry Pi, where I have engaged in projects and tasks utilising its programming, hardware interfacing and DIY electronics capabilities. [Jan 21 – Mar 21]
- Joined the debating club and learnt skills of Effective Communication, Critical Thinking, Competitive spirit, and Resilience.
- I am interested in photography, cinematography, music, fitness, and travelling.
